ME600SPT – 450mm I-Bar ‘Seal and Cut’ Sealer with Heat Gun

Sealer Product Description

Hand operated ‘seal and cut’ sealer, designed to seal products in centerfold and cut it from the roll. Essentially this machine allows you to make your own custom size bags. Ideal for use for packing supermarket bakery products like breads, muffins, cakes etc. Recommended for use with our Food Grade VECTOR film.

Product Specification

Model: ME600SP
Seal Length: 600mm
Seal Width: 1mm
Power: 240V/50Hz 350W

Heat Gun Product Description

Manual Heat Shrink Gun. Plugs into ME450SPT/ME600IPT. Perfect for Shrink wrapping items in layflat LDPE or centerfold VECTOR POF shrink film. Apply heat with either High or Low temperature to shrink the film around the package. Ideal for low volume (approx 300-500 packs per day) packing.
