

The Better Pack 333 Plus is a manual water-activated tape dispenser that is rugged, reliable and simple to use. This dispenser is perfect for light-to medium-volume packaging areas and accommodates both reinforced or non-reinforced water-activated tape. It is available as a non-electrical unit and also with an optional top heater accessory (electricity required), when increased tape adhesion is needed.

### Quality, Productivity & Performance

- Superior mechanics and guillotine blade deliver clean, even cutting of reinforced and non-reinforced tape
- Steel side frame construction ensures durability and long life
- Two water brushes provide consistent, uniform wetting of adhesive
- Large water bottle means fewer refills and less downtime
- Quickly choose one of 15 preset tape lengths on clearly marked dial

#### Top Heater Accessory (requires electricity)

- Heats water to optimize tape's adhesive properties
- Excellent for use in chilly shipping environments

#### Code Taper Accessory

- Allows for custom printing directly onto the water-activated tape as it is dispensed
- Print one-color logos, dates and printed codes on demand
- Requires custom roll pads and ink

### Environmentally Responsible

- Water-activated tape is recyclable and repulpable
- Only one strip of water-activated tape is needed for a secure, strong seal
- Portable dispenser requires no electricity
- One Better Pack 333 Plus can potentially replace **64\* handheld plastic tape guns!**
