

The CTP self-walk / Robot pallet wrapper offers two options of semi-auto, mobile wrapping machines being the CTP-600 Power Pre-Stretch or the CTP-601 mechanical pre-stretch film system. Ideal for applications requiring mobility, extended length or shaped pallet sizes with the Wrapper driving around to wrap the pallet, improving wrap consistency and all important load retention.

## Features & Benefits

- Semi-auto stretch wrapper with a Power Pre-Stretch film system or mechanical/core brake system
- Auto pallet height sensor – standard
- Soft start + emergency stop + robot speed adjustable
- Battery charger & batter power indicator
- The diameter of the detecting when is 320mm
- Top & bottom layers adjustable
- With rising & falling program
- Film carriage is driven by chain
- Servicing & spares plus technical support assured from any Bidvest Afcom branch workshop

## TECHNICAL DATA

	CTP600	CTP601
Model	CTP600	CTP601
Around Speed(m/min)	90m/min	90m/min
Min. Pallet Size(W x L)	600*600	600*600
Max wrapping height	2400mm(optional 2800mm)	2400mm(optional 2800mm)
Film Stretch %	230–300% / 200–250% (Power pre-stretch)	Mechanical stretch
Film tension	Adjustable	Adjustable
Elevator Unit speed	Adjustable	Adjustable
Max Film specifications	φ 250mm	φ 250mm
Machine size	1906×1225×2943mm	1906×1225×2943mm
Machine net weight	430kg	410kg
