KEEPING IT ALL TOGETHER

Paragon M+ Chain Stitch Quilter

Paragon M+ series machines are designed for all manufacturers where high-speed quilting is required. These machines are suitable for quilting extra-thick and heavy materials such as mattress panels, bedspreads, comforters, and sleeping bags. The Gribetz Paragon quilt machine, popular around the world for over 20 years, has been updated to include even more features to improve productivity and easier operations.

Features & Benefits

- Optional Preventative Maintenance software – Keep your machine running longer and stronger with software to remind and record operators' critical maintenance operations
- Optional quick-set MHP handles – Makes material changes fast and easy to keep production moving well
- Easy-access end guards with large window opening – For easier regular maintenance tasks
- Separate CPU and monitor with Windows 7 operating system – Featuring independent computer and touchscreen
- Faster Tack & Jump sewing – Reliable T&J sewing at 1,200 rpm
- Posi-trim T&J "tail" control – Paragon M+ eliminates tails from top of panel

Technical Specifications	
Model	Paragon M+
Max speed	1500 rpm
Recommended speed	1250 rpm
Available widths	228.6 cm 279.4 cm 330.2 cm
Number of needle bars	3
Needle bar spacing	7.62 cm (between bars)
Needle spacing	2.54 cm
Needle size	180/140
Number of loopers	45
Looper bases	270
Stitch length	5 – 10 SPI
Recommended Stitch length	7 SPI
Quilt package	Sews full range up to ultra-thick
Pattern compensation	Yes
Equistitch	Yes
Modern	Yes
Carriage travel	30.5 cm
Air pressure	6.2 bar
Air consumption	1.2 cfm
Current (amps)	40, 60 or 70 (depending on voltage)
Voltage	Any 3-phase voltage (includes multi-tap transformer)
CE approved	Yes
Weight	6.237 kg

No guarantees are provided against the above specifications as the use, condition and applications are outside the control of this company.
