

MH-FG-1000A Eco Automatic Pallet Wrapping Machine

Product code: 36MCMHFG1000A24

The MH-FG-1000A ECO is an entry-level pallet wrapper specifically designed to simplify and expedite your pallet wrapping process. With convenient features and user-friendly controls, this pallet wrapper is ideal for smaller businesses and light to medium packaging needs.

Features and Benefits:

- Cost-effective wrapping – Reliable pallet stabilisation without the premium price tag.
- Simple semi-automatic operation – Easy to use with minimal training required.
- Consistent load security – Even film tension for safer transport and storage.
- Compact & warehouse-ready – Ideal for low to medium throughput environments.
- Energy-efficient ECO design – Reduced power consumption for lower operating costs.
- Adjustable wrap settings – Control turns, height, and tension to suit different loads.
- Low maintenance build – Simple mechanics for long-term, hassle-free use.

Ramp Optional

Specifications:	
Model:	MH-FG-1000A
Power Supply:	Single Phase - 220V
Max Power:	320 W
Weight Capability:	1500kg Max
Mast Height:	2400mm
Dimension(L*W*H):	1500*2440*2475mm
Machine Weight:	650 Kg's
Film:	LLDPE film, width<=500mm,out diameter<=280mm
Dia.of turntable:	1500mm
Max Wrapping Height:	2000mm
Speed of Turntable:	0~10r/Min
Other Functions:	Automatic height detection

LLDPE film (Proudly SA Manufactured) available at Bidvest Afcom
