

The PFS 450 Foot Operated Heat Sealer or impulse sealer is used for sealing open ends of bags by applying pressure to a foot pedal. With the ease of use, the PFS 450 Heat Sealer is perfect for larger or faster moving packaging stations for improved efficiency. This F/O sealer can be used with a [plastic layflat tubing](#).

Features & Benefits

- Foot pedal for improved efficiency.
- Various sizes available on request.

TECHNICAL DATA

Model	PFS 450
Voltage	110V / 220V
Seal Size (mm)	450 x 10
Max Sealing Thickness (mm)	0.05 x 0.9
Dimensions (L x W x H)	800mm x 540mm x 250mm
Weight	23 Kg
Impulse Power	1.05 kW
