

Genesis Verti TP-502MV inherits all of the advantages from Genesis TP-502, such as compact strapping head, direct drive technology with German-made DC motors, and electronic tension control. It eliminates the use of manual tools and dispensers, and can be moved easily beside the load you want to strap without moving the pallet. The TP-502MV provides an ergonomic and cost-effective solution for low volume vertical pallet strapping applications.

Features

- Compact mechanical strapping head
- Electronic tension control
- Jog switch
- Mobility
- Good for lower height pallet
- Adjustable weld-cooling time
